SUMMARY

Recent B.A. Hons. Information Technology graduate from York University targeting IT Support / Help Desk / Service Desk / Jr Sysadmin roles. Hands-on projects in Windows administration, networking (TCP/IP, subnetting), troubleshooting, and security basics, including firewall configuration, patching, and backup/restore validation. 3+ years in high-volume customer service applying issue triage, documentation, clear status updates, and escalation to resolve requests efficiently.

SKILLS

Technical: Windows 10/11, macOS • Microsoft 365/Office (Word, Excel, PowerPoint, Outlook) • LAN/WAN, TCP/IP, subnetting, DHCP/DNS, SD-WAN

Support/Tools: Troubleshooting, end-user support, ticket documentation, escalation • PowerShell (basic) • VMware Workstation • Git/GitHub, XAMPP, FileZilla • SQL/MySQL, HTML/CSS, JavaScript, Python

PROJECTS

SwiftDesk (Ticketing Prototype)

Feb 2025 – Mar 2025

- Designed a Help Desk workflow prototype (intake, priority, escalation, status) for 4 user groups across desktop/mobile; defined P1–P4 priority rules to standardize triage and escalation.
- Built ticket lifecycle screens: create/track, queue, messaging, calendar, and KB/FAQ templates to streamline resolution of common issues.

Network Design (Subnetting + SD-WAN)

Sep 2024 – Nov 2024

- Designed a 4-department LAN (access/distribution/core) with /26 subnetting (62 hosts/subnet), VLAN/IP standards, and NAT + deny-by-default assumptions to improve segmentation and reduce exposure.
- Produced a BOM + cost estimate (~\$15.5K CAD) and documented assumptions; compared Cisco SD-WAN vs VeloCloud against availability/latency/scalability requirements to support vendor selection.

Home Lab Server (Windows)

Jul 2024 – Aug 2024

- Administered 3 services (FileZilla, XAMPP, Plex); tuned startup/power and applied updates for uptime.
- Secured LAN-only access (no exposed ports) with default-deny Windows Firewall rules and external-drive backups + restore spot-checks to validate recovery.

EXPERIENCE

Produce Clerk

Woodbridge, ON

Food Basics

May 2023 – Present

- Handled 20+ requests/shift; triaged needs, provided updates, and escalated exceptions to leadership.
- Maintained inventory accuracy via FIFO/expiry checks; reconciled discrepancies and replenished 30+ SKUs/day during peak periods.

Office Administrator (Contract)

Thornhill, ON

Calder Hill Contracting Ltd.

Jul 2021 – Dec 2021

- Coordinated scheduling, correspondence, and document handling; managed 10–20 active requests/week through completion and stakeholder updates.
- Tracked requests end-to-end using structured follow-ups and consistent status updates; improved organization with standardized naming/filing.

EDUCATION

York University

Sep 2022 – Jun 2026

Bachelor of Arts, Honours (B.A. Hons.), Information Technology

- Core Courses:** Networks, Database Systems, Systems Analysis & Design, IT Risk Management
- Certifications:** System Administration (Microsoft/LinkedIn) • Cybersecurity Foundations (LinkedIn Learning) • Responsive Web Design (freeCodeCamp)
